# THIS IS WHAT IT MEANS TO BE ENGINEERED TOUGH®

At OccuNomix, we have been keeping workers safe, seen and comfortable for decades, so you can do what you do in any weather conditions. From ergonomics to high visibility apparel, we make PPE that keeps you cool, seen, fends off the chill, cushions the unexpected impact, and supports your body against strain. We care about your body at work and because our reputation rides on our name, we push our products to the limit with:

## **CONSTANT INNOVATION**

From bringing the best that the world market has to offer in fabrics and treatments to finding new and novel designs that change the way workwear functions. OccuNomix is focused on innovation that brings well-made workwear into the future.

## **CONFIDENT WORKWEAR COMPLIANCE**

We are committed to third party testing our products as the standards are always increasing and the risks of noncompliance even greater. Particularly today, we believe it is more important than ever to give you products that are proven to be what they say they are and perform the way you need them to protect you.

## **FUNCTIONALLY DRIVEN DESIGNS**

We still leverage our foundation in ergonomics to inform and build products that fit the body at work. For this reason, they have the features and design elements that make you comfortable. After that, we provide the services that can customize them to the specific way you work - whenever necessary.

# NEW PRODUCTS

At OccuNomix, we're on an endless quest to uncomplicate your work life, while keeping it as safe as a bubble-wrapped kitten. Our latest innovations are proof of our Sherlock Holmes-esque detective work. They're not just new, they're also cut from the same high-quality cloth as our existing lineup. Who said innovation couldn't have standards? Not us!

# SUSTAINABLE WORKWEAR

Next Generation Hi-Visibility Vests and Shirts Made From Recycled Materials

## Why purchase an OccuNomix Sustainable Safety Product?

By purchasing these more environmentally friendly products, you are contributing to reducing pollution and the harmful impact production has on human health and our planet.

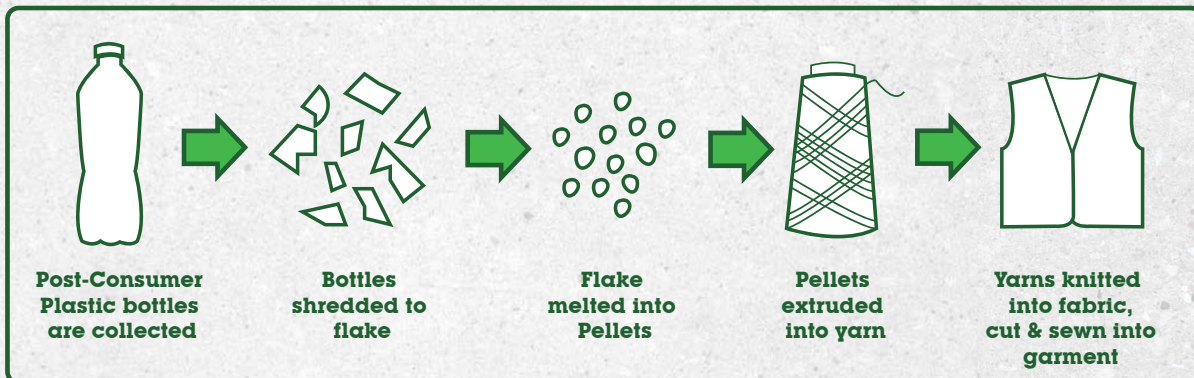

### Benefits of Recycled Products:

- OccuNomix Sustainable Safety Products are made from recycled PET bottles, requiring 79% less energy to produce compared to traditional raw materials. [1]
- OccuNomix Sustainable Safety Products are all made with a minimum of 12 recycled bottles each, which means producing 1 garment alone saves enough energy to power a laptop for at least 30 hours! [2]
- OccuNomix Sustainable Safety Products creates an alternative for the 91% PET bottles that end up in landfills [3]

**WE  
NEVER  
COMPROMISE  
ON FABRIC  
QUALITY.**

**Our recycled fabrics are  
lightweight, soft,  
comfortable,  
& sustainable!**

# DEMAND MORE FROM YOUR HIGH VISIBILITY

With OccuNomix high visibility apparel, you can finally stop playing hide-and-seek on the job. We've done our homework (third party tested, of course) to ensure your safety gear pops more than a champagne cork. Confidence? You'll have it in spades, because we're just as picky with our safety apparel as you are with your coffee order. Safety is our priority, but we like making it a fashion statement too!

# HIGH-VISIBILITY T-SHIRTS

In pursuit of T-Shirts that scream "Here I am!" while keeping you as cool as a cucumber? Your search ends here. OccuNomix offers long and short sleeve T-Shirts, so soft you'd think they were made of clouds, that act as your personal sunblock against those pesky UV rays.

# HIGH-VISIBILITY RAINWEAR

A man wearing a high-visibility yellow raincoat and brown work gloves is adjusting the hood of his raincoat in the rain. The rain is falling heavily, creating a blurred background. The man is looking down, focused on his task. The raincoat has reflective silver stripes on the sleeves and chest. The gloves have a logo on the back of the hand.

## COVER FROM EXTREME RAIN

Splish, splash, don't let rain be your downfall at work! We've got rainwear that's made to weather any storm and withstand the rough-and-tumble of the working world. Our gear is built with laminated membranes and sealed seams to ensure you stay as dry as a desert, meeting the ASTM E96 standards. All this, while boasting a durability that would make a superhero cape jealous. It's not just rainwear, it's a performance piece - all thanks to our choice of top-notch fabrics and construction techniques.

# EXTREME RAIN GEAR

Protection against the elements & the environment. The SP-BRJ and SP-BRP are compliant with Viral Penetration ASTM Method F1671 as well as Water Vapor Transmission ASTM E96 compliant

# HIGH-VISIBILITY X-BACK APPAREL & ACCESSORIES

## HELP ON THE TRACKS

Rolling out safety gear for rail workers for over three decades, OccuNomix doesn't just dress you up, it gives you an edge. Think of them as your secret weapon in the world of railroads, combining sturdy fabrics and savvy safety design into gear that's not just comfortable, but also stylish. And let's not forget the X-Back - it's not the latest buzzword from the fashion world but a game-changer in worker safety. X-Back safety gear is the traffic light of the rail world, helping moving vehicles spot and identify the direction the worker is facing. Now that's what we call a style statement!

# HIGH-VISIBILITY CLASS 3 VESTS

**ANSI/ISEA 107 TYPE R CLASS 3** vests as classified by the American National Standards Institute for High Visibility Safety Apparel and Accessories. CLASS 3 vests are reserved for those working in the most dangerous environments where visibility is the highest priority. TYPE R is a Roadway classification for any occupational workers who are exposed to roadways where traffic is traveling more than 50 mph. The standard also applies to Emergency Personnel or those working in extreme conditions where visibility is at a minimum.

# HIGH-VISIBILITY PUBLIC SAFETY VESTS

A firefighter in a high-visibility vest stands next to a fire truck. The vest is bright yellow with reflective red and white stripes and the word 'FIRE' printed vertically on the side. The fire truck is dark-colored with 'HUDSON OAKS FIRE RESCUE' and 'PCESD #3' visible on its side. The scene is set in a fire station with various equipment and hoses visible in the background.

## PROTECTING THOSE WHO SERVE

Let's ensure our brave public safety warriors never blend into the background. Make it easier for them to be spotted than a neon sign at midnight. High-octane visibility gear, it's like a superhero cape for our everyday heroes.

# EVERSHIELD - DOR

Searching for that superhero upgrade for your work gear? Consider our Vests made with a DOR (Durable Omni Repellent) Polymer coating! Think of it as your vest's personal invisibility cloak against water, oil, dirt, and those dreaded stains. This DOR coating is so formidable, even the United States Military uses it!

**ANSI/ISEA 107  
TYPE P CLASS 2**

Requires less background material which allows easy access to duty belt equipment.

Type P is a public safety classification which includes Emergency & Incident Responders and Law Enforcement.

# HIGH-VISIBILITY SELF-EXTINGUISHING

**Self-Extinguishing** vests are made from treated Polyester to self-extinguish **as defined by ASTM D6413**. This type of garment should never be used where an arc flash or flash fire hazard is present. Typical applications are asphalt paving, steel erection, bridge building and other applications involving Flame Resistant hazards that result from errant sparks rather than open circuit electricity or a potentially explosive atmosphere.

## TSE-IMZ32T

# COOLING PRODUCTS

## MADE TO KEEP YOU COOL

**Don't throw shade, wear it!** Ever been labeled the worksite grouch during summer's sizzling days? Feeling prickly when the sun turns up the heat is more common than you'd think! The struggle is real when the sun decides to turn the world into its personal oven. But, hey, it's not just about escaping the sweaty discomfort, it's about playing a long-term game called 'dodge the sunburn'. Don your sun-armor, folks, because keeping your cool when the mercury rises is more than just about comfort - it's about your long-term health!

# YOUR GUIDE TO COOL

For over 35 years, MiraCool® has been known for the best in evaporative cooling. We offer traditional Crystal Polymer, PVA, and MiraCool HyperKewl™ technologies with lightweight, super-absorbent materials. Our perspiration management products provide thermoregulation through UPF sun protection, wicking, and evaporative cooling.

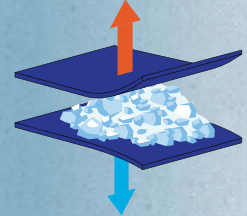

## MIRACOOOL® TECHNOLOGIES

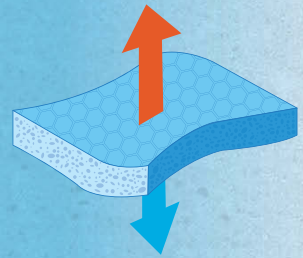

### POLYMER CRYSTALS

- Over 35 years of proven cooling
- Crystal polymers plump with water
- Activates in under 15 minutes
- Designed for quality, not slime
- Triple washed to avoid bleeding or staining

### POLY VINYL ACETAL

- Super absorbent, durable, lightweight material
- Feels drier to touch
- Honeycomb texture on one side perfect for wiping down
- Activates in one minute
- Designed for 100% evaporative power (no fabric-cover-up)
- Anti-mold & UPF 50+
- Machine Washable

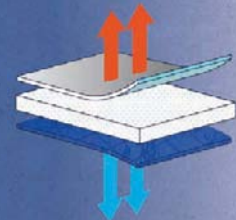

### INHERENT COOLING

- Cooling without chemicals
- Wicks and cools - with or without water
- Twist when wet to activate
- 23% more cooling power than microfiber
- Keeps Skin up to 30% Cooler when wet
- Anti-mold & UPF 50+
- Machine Washable

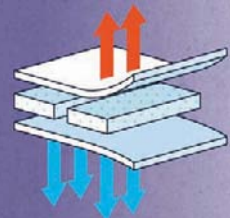

### MIRACOOOL HYPERKEWL™

- Made from MiraCool HyperKewl™ fabric that absorbs and slowly releases water
- Soak in water for 1-3 minutes to activate
- Up to 10 hours of cooling relief per soaking
- Reusable and easy to recharge
- Machine Washable

### PHASE CHANGE COOLING

- Provides cooling of 58°F/14°C
- Up to 3 hours of cooling per activation
- Reusable and easy to recharge
- Works in all temperatures & all humidity levels
- Machine Washable

# ERGONOMIC GEAR

## MADE TO KEEP YOU COMFORTABLE

Enter the world of OccuNomix, where we've been crafting ergonomic work gear for over 35 years - we're practically ancient in this field! Our range spans from supports to head protection and even gear bags. We're all about understanding the human body at work. It's like we have a PhD in comfort! Our gear is designed to help you power through your workday with ease. With our equipment, long hours will feel like a breeze. Remember, working longer doesn't have to mean working harder!

# KNEE PROTECTION

**121** - BLACK HARD PE CAP  
**122** - CLEAR PVC CAP

- Gel Injected EVA Foam Padding is ideal for hard surfaces
- Neoprene Split Strap keeps knee pads in place comfortably
- PE Cap with Slip Resistant Ridges

BEST SELLERS

## A CRADLE FOR YOUR KNEES.

Knees are one of the most important joints in the human body. So why are you beating them up?

According to the American Journal of Epidemiology, investing in knee pads decreases the risk of knee injury by 56%. That's why we made a line of affordable knee pad solutions, with Cradle Technology™, contoured to fit the knee.

## STANDARDS MADE SIMPLE

### ANSI/ISEA 107 Standard

Since 1999, the standard has been recognized by federal, state and local authorities as well as private industry and provides performance criteria for materials used, specifies minimum areas and recommends placement of the materials. The standard's performance requirements focus on color and brightness of garments relative to the work environment and the combined use of fluorescent and retroreflective materials to make a person conspicuous in all light conditions, day and night. ANSI/ISEA 107 includes criteria for flame resistance (FR) as an optional feature of high-visibility personal protective equipment. High-visibility apparel marked as FR must be certified as complying with one of the FR tests cited in the standard.

### ASTM F1506 and NFPA 70E Standards

Garments that meet these standards are ideal for workers exposed to momentary electrical arc and related thermal hazards. Applications: Utility workers, Welders, First responders, Railroad workers, Oil & Gas workers

### NFPA 2112 Standard

Protection against flash fire. Garments that meet this standard are made from UL approved components. The garment itself must be UL approved - if not the garment is not NFPA compliant! Applications: Electrical, Utility and Oil & Gas to name a few.

### ASTM F1891 Standard

Electrical Arc specific to FR rainwear

### ASTM F2733 Standard

Protection against Flame Hazards (i.e. flash fire) specific to FR rainwear

# MADE TO KEEP YOU SAFE

OccuNomix FR clothing laughs in the face of mediocrity. Designed exclusively for the industrious types, it parades audacious colors and toughness like nobody's business. It's not just survived, but triumphed over the baptism of fire in arc and flame resistance tests, and proudly struts a third-party certification as its superhero emblem. With OccuNomix, you're not simply donning top-notch gear - you're essentially wearing a safety suit while you conquer the work world.

# DUAL CERTIFIED FLAME RESISTANT

Don't miss the  symbol for dual certified items.

## FR-TM2212

- 6.4 oz Modacrylic Blend Knit
- Meets ANSI/ISEA 107-2020 Type R Class 2
- 2" Flame Resistant Reflective Tape
- Flame Resistant Thread
- Classified by UL to NFPA 2112
- 1 Chest Pocket
- Sizing: M-5X

## FR-TM2112

- 6.4 oz Modacrylic Blend Knit
- Meets ANSI/ISEA 107-2020 Type R Class 2
- 2" Flame Resistant Reflective Tape
- Flame Resistant Thread
- Classified by UL to NFPA 2112
- 1 Chest Pocket

- Meets ANSI/ISEA 107-2020 Type R Class 3
- 2" Flame Resistant Reflective Tape
- Draw Cord Hood with adjusters
- Flame Resistant Thread
- Classified by UL to NFPA 2112
- Pockets: 1 Pouch
- Sizing: M-5X

# ASTM F1506 AND NFPA 2112 COMPLIANT

## FR-VM1112

- 6.3 oz Modacrylic Blend Ripstop
- Meets ANSI/ISEA 107-2020 Type R Class 2
- 2" Flame Resistant Reflective Tape
- Flame Resistant Hook & Loop Closure
- Flame Resistant Thread & Binding
- Classified by UL to NFPA 2112
- 1 Outer Lower Right Pocket
- Sizing: S-5X

**BEST SELLER**

## DUAL CERTIFIED FLAME RESISTANT

Garments are certified to:

ASTM F1506 – arc flash protection

NFPA 2112 – flash fire protection

OCX™ Flame Resistant garments are certified by UL to NFPA 2112.

That means UL has verified each garment component, the factory and the garment as a whole all comply with the safety standard for flash fire. Look for the label inside the garment with the UL symbol.

## FR-VM1312

- 6.5 oz Solid Tencel/Modacrylic/Aramid
- Meets ANSI/ISEA 107-2020 Type R Class 2
- 2" Flame Resistant Reflective Tape
- 5-PT. Breakaway at shoulders, side & front
- Flame Resistant Hook & Loop Closure
- Flame Resistant Thread & Binding
- Classified by UL to NFPA 2112
- Sizing: S-5X

## FR-VM1122

- 6.5 oz Solid Tencel/Modacrylic/Aramid
- Meets ANSI/ISEA 107-2020 Type R Class 2
- 2" Flame Resistant Reflective Tape
- Flame Resistant Hook & Loop Closure
- Flame Resistant Thread & Binding
- Classified by UL to NFPA 2112
- 1 Outer Lower Right Pocket
- Sizing: S-5X

# ARC FLASH GARMENTS

## FR-VM2213

# MEASURE YOUR BODY FOR A PROPER FIT

**Chest Size:** Taken at the fullest point of your chest. Measure just under your arms and across shoulder blades holding the tape firm and level.

**Waist:** Measure around your natural waistline, keeping the tape snug, but comfortably loose.

**Inseam:** Measure from the base of your crotch to the top of your shoe. For a more accurate measurement have someone take this measurement. You can also measure a similar pant that fits you well. Lay the pant flat with the front and back creased smooth. Measure along the inseam from the crotch to the bottom of the leg hem.
